ARES contact manipulation | Actual Isaac Sim 5.1 / Isaac Lab 2.3.0

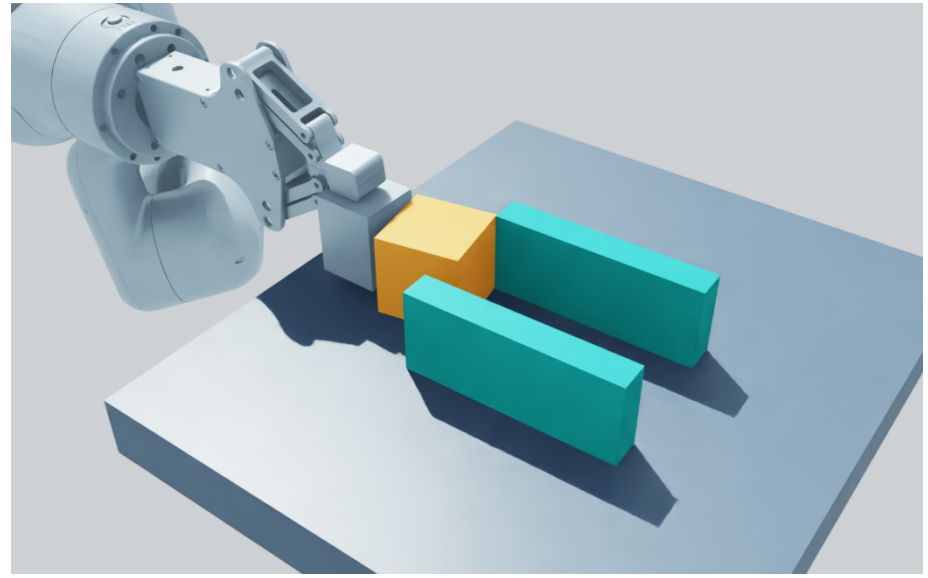

A | One application, 16 independent PhysX environments

B | P2 case 3: successful episode (nonterminal frame)

C | P2 case 1: timeout episode (nonterminal frame)

SYNTHETIC self-built v6b task; live policy re-evaluation, not B3 training. Free 40 mm cube; fixed research paddle; no contact grasp or field scene.
